CHRISTIE'S

BULLETIN.

A PLAIN STATEMENT OF FACTS, REGARDING THE GENUINE GALVANIC RINGS AND MAGNETIC FLUID.

New York, Jan. 1846.

"By their Fruits ye shall know them."

For Gratuitous Distribution.

This publication is issued by DR. A. H. CHRISTIE, as a simple matter of justice to the American public, and to himself. The invention of which he is the proprietor, and which he has had the honor of introducing in this country, has now borne a sufficient trial to demand an impartial verdict, and it is deemed but just and proper to lay the following *proofs* before the public, that each individual may judge whether the invention is really what it pretends, or whether it be one of the ordinary "humbugs" of the day. The matter has occasioned an unusual interest in the community, and it is hoped that now an opportunity is thus fairly presented, all will feel sufficient interest in what concerns the welfare of humanity, to give it a fair and candid examination.

The GALVANIC RINGS and MAGNETIC FLUID are offered to the public as a *positive and permanent cure* for RHEUMATISM and all NERVOUS COMPLAINTS. This invention, which has received the almost universal approbation of the medical profession of Great Britain, comprises an entirely new application of Galvanism, as a remedial agent, by means of which the ordinary Galvanic Batteries, Electric and Magnetic Machines, &c., are entirely dispensed with, and the mysterious power of Galvanism applied without any of the objections which are inseparable from the general mode now in use. The strong doses, and at irregular intervals, in which Galvanism is applied by the Machines, has been pronounced, after a fair and impartial trial, to be *decidedly injurious*, and it was to remedy this radical defect, that this new application was projected, which, after unceasing toil and perseverance, has been brought to its present state of perfection. The GALVANIC RINGS answer all the purposes of the most expensive Machines, and in many other respects are more *safe and certain* in accomplishing the desired object.

The GALVANIC RINGS, used in connection with the MAGNETIC FLUID, are confidently recommended in *all disorders which arise from an enfeebled or unhealthy state of the nervous or vital system*, and these complaints are among the most painful and universal to which we are subject. They arise, without exception, from one simple cause—a derangement of the

Nervous system—and it was in these cases that other "remedies" having so often failed, a new agent was wanted, which it is confidently believed, has been found in the proper and judicious application of Galvanism.

The GALVANIC RINGS have been used with entire success in all cases of *Rheumatism*, acute or chronic, applying to the head, face or limbs; *Gout, Tic-Doloroux, Toothache, Bronchitis, Vertigo, Nervous or Sick Headache, Indigestion, Paralysis, Pulsy, Epilepsy, Fits, Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spinal Complaints, Lumbago, Neuralgia, Nervous Tremors, Dizziness of the Head, Pains in the Chest and Side, General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders*. In cases of confirmed *Dyspepsia*, which is simply a nervous derangement of the digestive organs, they have been found equally successful. Their extraordinary effects upon the system must be witnessed to be believed, and as a certain *preventive* for the preceding complaints they are equally recommended. The RINGS are of different prices, being made of all sizes, and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience. In fact, the sensation is rather agreeable than otherwise.

THE GALVANIC BELTS, BANDS, BRACELETS, GARTERS, &c.

are modifications of the invention, and are recommended in more chronic cases of disease, where the RINGS do not possess sufficient intensity or power. They are adapted to the waist, arms, wrists, ankles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galvanism can effect, will fail to be permanently relieved.

CHRISTIE'S MAGNETIC FLUID

Is used in connection with the Rings and their modifications. This Composition has been pronounced by the French Chemists to be one of the most valuable discoveries of modern science. It is believed to possess the remarkable power of *rendering the nerves sensitive to galvanic*

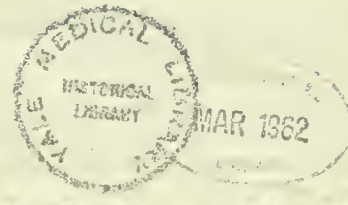

action, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief. Its composition contains nothing capable of the slightest injury, its application is agreeable, and it is as harmless in its action as it is beneficial in its results. Full explanation and directions accompany it. The combined inventions are in every way perfectly harmless; they are at prices within reach of all, and the discoverer only requests a fair trial, as a test of their surprising efficacy and permanent benefit.

CHRISTIE'S GALVANIC STRENGTHENING PLASTERS

These articles form another valuable application of the mysterious influence of Galvanism. They are an important addition to the Galvanic Rings, acting upon the same principle, but having the advantage of more local application. As an *effectual means for Strengthening the system when debilitated by disease or other causes; as a certain aid in constitutional weakness; as a preventive for colds, and in all affections of the chest generally*, the GALVANIC STRENGTHENING PLASTERS will be found of great and permanent advantage. They are recommended to the weak in all stages of life, particularly to females of delicate constitution. To the aged they must prove a valued companion, for in many cases they seem almost to restore the departed faculties and vigor of youth. As is the case with the Rings, the Galvanic Plasters have been *counterfeited* by unprincipled persons. It will therefore be well to bear in mind, that the genuine Plasters must necessarily possess an outer covering of *pure silk*. All others are worthless imitations.

It is impossible to give anything more than a faint idea of this discovery, in the limits of this sheet. Explanatory pamphlets with full details, may always be obtained gratis of the respective agents.

DR. CHRISTIE trusts that the motives will be appreciated, when he states that he is an educated physician, having received his diplomas from the most celebrated colleges of Great Britain, being a graduate of the London University. It was of course but natural that the cry of *quackery, empiricism, &c.*, should be raised, when an invention so novel and

as the present was first presented, and moreover, the prejudice of the "profession" acted powerfully against ascertaining the true merits or demerits of the case. The truth has, however, long since been admitted and established among the most intelligent and scientific persons in England and on the Continent, that this application of Galvanism is a *valuable discovery in medical science*, and the proofs of this fact have become so multiplied and conclusive, that few physicians of reputation in Europe, would now have the hardihood to question its remarkable power and wonderful efficacy. It is not intended to display a series of *foreign* testimonials and certificates regarding the efficacy of this discovery, but it will be acceptable to present a selection of *home* certificates, which have been obtained during the comparatively short time it has been before the American public. The following are sufficiently numerous to be satisfactory, but are selected from upwards of *one thousand* of a similar character. They have been voluntarily given by persons above any thing pertaining to quackery or deception, and it is hoped they will, therefore, receive the confidence and attention they deserve.

CHRISTIE'S BULLETIN.

NEW YORK, JANUARY, 1846.

☞ All communications relating to business with Dr. CHRISTIE, should be addressed to D. C. MOORHEAD, General Agent, No. 134 Fulton street, New York.

☞ It is but justice to state, that the following testimonials, although of the strongest and most conclusive character, are only a specimen of more than *twenty times* the number, all from sources equally respectable. All persons interested, and who are desirous to know the *whole truth*, are respectfully requested to call at the General Agency, and inspect *further evidences*.

HOME CERTIFICATES!

Nervous Headache and Rheumatism.

Dr. A. H. CHRISTIE:

Dear Sir—I have from my childhood, been afflicted with almost constant Nervous Headache and Rheumatic pains in my legs and arms. I have suffered so intensely that it has prevented me from following my usual occupation and frequently destroyed my appetite. My nervous debility and weakness has subsequently been so great, that after having tried almost every thing without any relief, I gave up in despair. I was recommended to try your Galvanic Rings and Magnetic Fluid, and only at a friend's urgent solicitation, was induced to do so. Its effect upon my system was almost miraculous. After a few hours the application appeared to strengthen my nerves, relieved me of my headache, and I have had no relapse of the Rheumatism, or any other pains since the first day.

JACOB A. OGBURY,

162 William street.

New York, Sept. 11, 1845.

☞ RALPH BOGART, Esq., 658 Washington-St. N. Y., was cured of Inflammatory Rheumatism and general Physical Debility, to which he had been subject for over six years.

Severe Paralysis.

☞ The following is copied from "The Orphans' Advocate, and Social Monitor," the well known publication in Boston, edited by the Misses A. & E. C. FELLOWS.

"DR. CHRISTIE'S GALVANIC RINGS."

"The efficacy of Galvanism in the cure of diseases, particularly those affecting the Nervous System, has long been acknowledged. The difficulty has been, that while the patient received a benefit in one direction, he was injured by the severity of the shocks. This difficulty has of late been in a great measure remedied, by an improved construction of the Galvanic Battery. But the great desideratum lay still beyond; it was to *apply the Galvanic power gently and unceasingly*. This important object has been accomplished by the Galvanic Rings, which have lately been invented, and have suddenly risen into much public favor. In relation to these Rings, we have witnessed some very practical results, unless we are greatly mistaken in the cause. One was that of an orphan girl in our own charge, and temporarily in our family, who had been a great sufferer under paralytic shocks, till she had nearly lost the use of her limbs. One of her hands for example, was completely twisted up. She has used Dr. Christie's Galvanic Rings and the Magnetic Fluid which accompanies them, for a few weeks, and *she is now almost completely cured*. We could name other instances of persons in poor health being greatly benefitted, if not completely restored by their use. The expense of trying them is but little, and they can certainly do no harm. Many of the simplest remedies are, after all, the most efficacious."

Cramp and Rheumatism.

Dr. CHRISTIE:

Dear Sir—I have been severely afflicted for the last eight years with Cramp in my legs and thighs, frequently suffering the most excruciating pains, the cords of my legs having been contracted into knots. I have tried every Remedy that I have ever heard of, without the least success. In truth, I seemed only to be getting worse. From a favorable account which I accidentally heard, I was induced to try the effect of your Galvanic Rings and Magnetic Fluid. In less than twenty four hours after wearing two of the Rings, one on each hand, the severe pain had entirely left me, and several weeks having now elapsed without any recurrence of my complaint, I believe a complete cure has been effected by your discovery. My wife has been severely troubled with chronic Rheumatism, affecting her in various parts of the body which has been cured, as she believes, effectually, by the use of the Rings and Magnetic Fluid, after a trial of but a few days.

SAMUEL SHIELDS, 155 Eldridge-st.
New York, June 25, 1845.

Nervous Debility, Prostration, &c.

New York, Nov. 1st, 1845.

To Dr. A. H. CHRISTIE:—For six years I have been a sufferer, and I believe none can have suffered more. My disease was a complication of complaints, brought on by exertions to support my family, often being obliged to work at the needle, for twenty hours out of the twenty-four. I was afflicted with distress in the head; my sight was impaired and a general weakness seemed to prostrate my entire faculties. I was under the care of Dr. Stillwell, No. 13 Suffolk street, for a long time, but my case was so stubborn that it baffled the skill of every physician I tried. My nervous excitement was such, that the slightest noise would sometimes throw me into convulsions. Sometimes I would not close my eyes during the night, and would walk the room half the time. For over a year I was so deaf that I could scarcely hear any one speak. My life has been constantly despaired of, and I often wished death to relieve my sufferings. Such is a feeble statement of my situation last June when I first heard of your Galvanic Rings and Fluid. I purchased the articles, have worn them ever since, and the result is, that *I have completely recovered my health, my strength and my spirits*. My friends, my physician and myself are confident that it is solely to the use of your wonderful Rings and Magnetic Fluid that this happy result has come to

pass, and I shall ever gratefully acknowledge, and am now, and will be, at all times, ready to state any further particulars, or to satisfy the public that my assertions are true in every respect.

LAURA JOHNSON,
112 Division-st.

Convulsions and Fits.

☞ There are probably no complaints, so violent in their character, and which so often baffle the efforts of the physicians, as those comprehended under the simple title of *Fits*. The three following certificates, bear very strongly on this terrible class of diseases, and are certainly deserving of earnest attention.

Dr. A. H. CHRISTIE,

DEAR SIR.—I feel it a duty to state for the benefit of the public, that your Galvanic Remedies, as applied by the Rings and Magnetic Fluid, have entirely cured my son, now eleven years old, of the most severe and alarming Fits to which he has been subject for the last six years. He has often had from 12 to 16 fits in one day, sometimes accompanied with the most dreadful screaming, at the same time a choking in the throat, and pain in the region of the heart. His mother and myself have long despaired of his life and a release from such misery could not be lamented. But through the means of Providence and your remedies *he is now quite well*, and I sincerely believe his cure will be permanent. We put on the Rings and applied the Fluid in one of his violent convulsions and it soon passed off; for the succeeding few days he had merely some symptoms of the complaint, and now for a period of seven months there has been no symptom whatever that we could detect. My son looks better, eats heartily, sleeps soundly, and is certainly in every respect an altered child.

I am, very respectfully, yours,

GEORGE WHITE,

New York, Nov., 13, 1845.

101 Charles-st.

☞ A child of the Rev. S. R. Rowarth, the well known minister of the Methodist Episcopal Church, residing at 105 Division-street, New York, has been subject to Fits since birth. He has generally been attacked in the night, and has several times been supposed to be dead. The use of the Galvanic Bracelets and Fluid has caused their complete disappearance. The system being much weakened by his frequent attacks, the Galvanic Strengthening Plaster was recommended, which was used with the happiest results.

☞ A daughter of Orlando Moore, Esq., No. 115 Crosby-st., opposite Niblo's Garden, New York, has been afflicted from infancy with periodic convulsions of an alarming character. The attacks generally came on every three weeks, and at a change of the weather; use has been made of the Galvanic Bands and Necklaces since August last, and for a period of five months there has been no attack whatever.

Rheumatic Gout.

To Dr. CHRISTIE:

Sir—After a fair trial of almost everything without any good effect, I think I must attribute a remarkable cure to the power of your Galvanic and Magnetic articles. If I am not mistaken in the cause, they have very seriously relieved me of Rheumatic Gout, of long standing, together with general nervous debility of the system. I would not part with the articles for any consideration, and think it only right to let the public know where such good friends may be had in time of need.

MRS. MARY JACKSON,

709 Bank street, New York.

☞ Mrs. Jackson is a relative of Major M. M. NOAH, who has kindly added the following:—

Dear Doctor—The above case is personally known to me, and is not less strange than true. I is a happy result, to which I bear witness with pleasure. I may state, that several other cases have come to my notice, of a nature equally fortunate and successful. Wishing you every reward you may merit. I am, very sincerely, yours,

M. M. NOAH

New York, Oct. 30, 1845.

Apoplexy and Paralysis.

The following case is of a deeply interesting character, and has attracted the earnest attention and examination of several of the first physicians of New York and Brooklyn.

Captain ANDREW TOMBS, residing at No. 70 Bridge-street, Brooklyn, is in his 76th year. He has generally enjoyed robust health, but about three years since, it began gradually to fail; a general weakness and lassitude seemed to come over him, accompanied with depression of spirits. Loss of appetite, inability to sleep, &c., soon followed. Medical assistance was sought, and Dr. John W. FRANCIS, of New York, was consulted. The usual remedies, such as copious bleeding, &c., were administered, though without the desired effect, as Capt. Tombs shortly after, fell down in the street, insensible, with a severe Apoplectic fit. On partially recovering the effects, he noticed, for the first time, that a portion of his left side was apparently dead, and on further inquiry, his physicians pronounced his case to be that of combined Apoplexy and Paralysis. The paralytic symptoms rapidly increased; the arm and limbs became affected, indeed, the whole of one side of the body was lifeless, and shortly after he experienced an apoplectic fit, more severe than the first, and for several hours his life was despaired of. As matters grew worse, physicians seemed able to do less. He was now unable to walk without assistance, he could neither feed nor dress himself alone; he was unable to articulate distinctly, and his sight also was impaired. His physicians, among whom were Dr. John W. FRANCIS, of New York, and Dr. Wm. G. Hunt, of Brooklyn, considered his case as entirely helpless, and beyond human aid. Such is a simple and unexaggerated statement of the situation of Capt. Tombs, in July last, when he first heard of the Galvanic Rings and Magnetic Fluid. His family were desirous to try the experiment, and for the purpose purchased a pair of the Rings, for the hands, a pair of the Bands, for the limbs, and one bottle of the Magnetic Fluid. In twenty-four hours after using these articles, feeling was perceptible in the paralyzed parts, and perspiration broke out. *In five days he was enabled to raise his arm and use his hand, and in three weeks he was able to walk alone.* He now began to speak distinctly, could see clearer, and in every respect was improved. A period of over six months has now elapsed, during which time, no symptom of Apoplexy has been apparent, he is enabled to take regular exercise, and all his impaired faculties have been restored.

Severe Chronic and Inflammatory Rheumatism.

The following is copied from a leading Editorial article, dated, Nov. 13th, 1845, in the New Era, Portsmouth, Va., A. F. CUNNINGHAM, Esq., Editor.

"We feel it a duty to owe to the public, to those who are suffering under the severe affliction of Rheumatism, Tic Doloreux, Gout, &c., to bear this unsought testimony to the superior beneficial effects of the GALVANIC RINGS and FLUID lately introduced in this country by the discoverer, Dr. A. H. CHRISTIE, an English physician of high reputation.

Mrs. Cunningham has been suffering severely from both chronic and inflammatory Rheumatism, for many years, and has found but little relief from the many applications recommended by physicians, and the patent nostrums, which have been advertised as certain and sovereign cures. Last week the attack of Rheumatism was so severe that the agony was almost too much to bear, and the bones of the right foot and wrist were sensibly projected from their natural position, by the pain, when we determined to try the virtue of these Rings and Fluid, although both Mrs. C. and myself had no faith in their virtues. The fact, however, has forced itself upon our minds, that they possess astonishing power. From the first fifteen hours of their application, a sensible diminution of pain commenced, first leaving the wrist free, and finally by a strict observance of the directions, the foot and whole body were entirely relieved from pain and swelling, in six days from the commencement of their use. We make this statement, as stated above, without the knowledge of Dr. Christie, or his agents, as a matter of information to the public. Two Rings were worn, one on each hand."

Sick Headache.

The following certificate is from the lady of Capt. JOHN F. STRAIN, one of the most respectable citizens of Albany, N. Y. Reference can be given to many others, mostly ladies, who seem peculiarly affected with this malady.

"This is to certify, that I have been afflicted for several years past with the Sick Headache, which distressing complaint has confined me to the bed from one to two days in the week during that time. For one month past I have worn Dr. Christie's Galvanic Rings, and occasionally using the Magnetic Fluid. I am happy to say that I have not been troubled with the sick headache since.

ANN F. STRAIN, 67 Dewitt St.
Albany, December 2, 1845.

Mrs. J. TRENOR, wife of the celebrated Dentist, No. 4 College Place, N. Y., sent for the Rings and Fluid during the continuance of a severe attack of the Sick Headache, to which she has long been subject. In five minutes after applying the Fluid, the pain entirely left, and since then, there has been no return of the complaint.

Disease of the Heart.

The case which follows is among the most remarkable which has come under the notice of Dr. CHRISTIE. In cases of *Palpitation of the Heart* it is believed the Rings and the Fluid have never failed. The following case, however, is of a nature unusually remarkable.

New York, Oct. 29th, 1845.

My father, Asaph Magoun, now 55 years of age, resident of Pembroke, Plymouth County, Mass., has been afflicted for the last three years with the disease called *water on the heart*. The complaint has been gradually increasing, and during at least one-half of the time, he has been unable to leave his bed, and his weakness has been such, that he has been unable to assist himself in any manner. The advice of all the eminent physicians in the neighborhood, in Boston, and in other cities, was sought, their prescriptions faithfully followed, and after what they considered a fair trial, they gave him up, stating that medicine could be of no avail in his case, and that nothing could save his life. About three weeks ago I arrived in New York, from a three years' voyage to the East Indies, and from the painful news I heard, my first duty was to hasten to what I believed was the death-bed of my parent. Seeing the advertisement of Dr. Christie's Galvanic articles, I was induced, from some unaccountable cause, to call at the agency, and purchased a pair of the Galvanic Rings and one bottle of the Magnetic Fluid, before starting for Pembroke, to see my father. On my arrival, I found him very low, none of the family having the least hopes of his recovery. I suggested a trial of the Rings and Fluid, and with difficulty persuaded his consent. In less than eight hours after using them, a manifest change was perceptible, and the next morning some symptoms of returning strength were evident. It may prove tedious to lengthen the details; suffice it to say, that after using Dr. Christie's Galvanic Rings and Magnetic Fluid, for the past three weeks, he has almost entirely recovered his health; the disease seems to be completely arrested, and he is better in every respect than he has been at any period during the past three years. I have full belief in his perfect and permanent cure, and am confident it has been accomplished solely by the Galvanic Rings and Magnetic Fluid of Dr. Christie.

CHARLES H. MAGOUN.

First mate of the ship, "Francis Whitney."

On this 29th day of October, one thousand eight hundred and forty-five, appeared before me the within named Charles H. Magoun, and made solemn oath that the above is substantially true in each and every particular.

W. F. HAVEMEYER,

Mayor of the City of New York.

Severe Headache from a Sun Stroke.

MR. GORDON WILLIAMS, No. 138 Seventh-st. next door to Avenue D, New York, was entirely relieved in three days, from a severe and constant pain in the head and eyes, caused by a stroke of the sun, received in a southern latitude.

Spinal Complaint & Dyspepsia

The case which follows, is of a highly interesting nature, bearing, as it does, upon a compilation of two of the most severe and painful diseases which can be named. The subject, is a gentleman widely known in Philadelphia.

To DR. A. H. CHRISTIE:

My Dear Sir—Several years since, (in 1838,) while residing at the South, I was attacked with the bilious fever; my case was exceedingly severe, and the saving of my life looked on as a "lucky chance." After my recovery, I found my whole system much debilitated; I was unable to take necessary exercise, a general lassitude seemed to come over me, which the prescriptions of the best physicians failed to relieve. During the intervening time, now nearly seven years, I have been a constant sufferer, being afflicted with severe pains in my head, extending down my spine, and my powers of digestion were so impaired, that I was always in agony for some hours after the simplest meal. I could sleep but little at night, and was reduced to a pitiful object, from my disease, which had now settled into the *Spinal Complaint and Dyspepsia*, both of the most severe kind. From your advertisements, I was induced to make trial of the Galvanic Rings and Fluid, and I rejoice to tell you the result has been more happy than I dared to hope for. I have now worn them five weeks, and I think I may say, that from the second day I put on the Rings and used the Fluid, my health has been steadily improving. My appearance is altered, I attend to business regularly, take daily exercise, and have a good appetite. The pains in my head and spine, seem almost to have left me—in short, I am an altered person. As I feel certain that this result has been brought about solely by your Magnetic Fluid and Rings, I believe it only right to let you know of it, and to allow you to make use of my name, if you think proper.

I am, dear Sir, very respectfully,

JAMES H. BIRNEY,

No. 200 Chestnut-street, corner of Eighth.
Philadelphia, Aug. 9th, 1845.

Tic-Doloreux.

The following testimonial is from TIMOTHY C. DWIGHT, Esq., who is so favorably known, from his exertions in the cause of Education generally throughout the Northern States. Dr. CHRISTIE is also at liberty to mention the lady of Mr. DWIGHT, who has been quite cured of a nervous complaint of a character nearly similar.

DR. A. H. CHRISTIE:

Dear Sir—It is with gratitude and pleasure, that I inform you of the great and unexpected benefits, I have experienced from the use of your Galvanic Rings, and Magnetic Fluid. For several years, I have been terribly afflicted with that agonizing complaint called Tic Doloreux, principally affecting the sciatic nerves. At times, no human being can have suffered more—my screams have often disturbed the neighborhood. By simply wearing one of your Rings, on each of my hands, and faithfully using the Fluid, the complaint has entirely left me, and I now believe myself completely cured. As I had tried everything before without any avail, I must without hesitation attribute my cure, to your novel remedies.

I am, very respectfully, yours,

TIMOTHY C. DWIGHT.

Albany, Dec. 4, 1845.

Mrs. MARY BONYCASTLE, widow of the late Prof. Bonycastle, President of the Virginia University, residing at Mrs. Shenard's, Pennsylvania Avenue, Washington, D. C. has also been permanently relieved of severe Tic Doloreux affecting the face.

RAWSON CURTIS, Esq., No. 375 Broadway N. Y. Agent for the Brooklyn Glass Works, has been perfectly cured of Acute Rheumatism, and Lumbago, of a very severe kind. For ten years past Mr. Curtis has been troubled with an incessant pain in the side, caused from taking a violent cold. By simply using the Magnetic Fluid, on the part, the pain has entirely left, and for a period of several months, no symptoms of any of his former complaints has appeared.

Pulmonary Symptoms and Paralysis.

The following is an extract from an Editorial, which appeared on the 24th of June last, in the *Albany Daily Citizen*, J. Stanley Smith, Esq., Editor.

"The Patent Galvanic Rings which are making such a stir in the world just now, are a novel invention of this age of inventions.

"With regard to their efficacy we can say that two or three cases have fallen under our notice which have favorably impressed our minds. The first is that of a highly respectable merchant of New York, who declared to us that their use speedily relieved him of a cough, seated pain in the side, and many symptoms of a pulmonary complaint, and he is now entirely well. The second that we shall notice is that of a young man named Robbins, a resident of this city, who about one year since was visited with an attack of the Paralysis which affected the whole of one side of his body. We accompanied a medical friend to his residence, No. 96 Beaver-st., on Saturday, to enquire into his case. We found that he had been deprived entirely of the use of one arm and leg, and that sensation had been lost to the whole side of his body. He had been unable to use the leg in walking, or the arm in eating, and the physicians said they could not help him. Within the last few weeks he has worn two and four of Dr. Christie's Galvanic Rings, and used the Magnetic Fluid, and the effect upon his paralytic limbs is astonishing. The deathlike coldness left them, the numbness began to give way to many sensations of returning life and itching, perspiration came out more freely, and he has rapidly been gaining, and while before he wore the Rings he was unable to articulate distinctly, walk or feed himself, yet now he talks freely, rides out, walks some, and for the most part is able to help himself. These cases coming to our personal knowledge, certainly testify to the merits of Dr. Christie's Galvanic Rings and Magnetic Fluid."

Inflammatory Rheumatism.

On last Thursday I was attacked with violent pains in the small of the back and joints, being, as I suppose, Inflammatory Rheumatism. On Friday my pains increased so that I was obliged to go to bed, and on Friday night I was in such extreme agony that the inmates of the house thought I must die from the extreme agony of my pains. Seeing in the newspapers the wonderful account of Dr. Christie's Galvanic Rings, I sent a friend of mine (John Webster) to inquire the price of them, and procure one, if possible. My friend proceeded to the Agent's store, and was there told the price of the genuine Rings, which, although trifling, was more money than I had, and my friend was about returning, when Mr. Hance, the Agent, called him back, and enquired about my case. After hearing it, he offered to give him a pair of Rings and the Fluid to take to his friend, to give them a trial. In fifteen minutes after I had placed the Rings on my fingers, and had used the Fluid, I experienced the greatest relief, and in three days I was enabled to leave my bed and walk about the room. I have now sufficiently recovered to walk to the Agent's store, and state my case; also to Squire Shaffer's office.

I make this statement to the public to let those who are suffering know where to obtain relief, and to set forth the wonderful effects of Dr. Christie's Fluid and Rings, as some have attempted to cry down the Fluid.

RICHARD HOLCROFT.

35 Britain-street, near Madison.

BALTIMORE, NOV. 7, 1845.

State of Maryland, City of Baltimore, ss—On this 4th of November, 1845, before me, the subscriber, a Justice of the Peace for said City, personally appeared Richard Holcroft, who signed the written statement before me, and made solemn oath that the several facts contained therein are respectively true as they are therein set forth. Sworn before me, Wm. A. SCHAEFER.

D. C. MOORHEAD, General Agent No. 134 Fulton street, New York. Only agent for New Haven, C. B. WHITTLESEY, 158 Chapel Street.

Epilepsy and Palpitation of the Heart.

The following case relates to a clergyman—the son-in-law of Mr. JOHN JACOB ASTOR, of New York. From the known respectability and influence of the parties, it is worthy of attention.

Rev. JOHN BRISTEN, Minister of the Episcopal Church at Bristol, R. I., residing in Main-st., has long been subject to distressing attacks of Epilepsy, often falling down insensible. The disease has been accompanied with violent Palpitation of the Heart, and a rush of blood to the head. His situation has often been very precarious, and the efforts of physicians were useless. For three years he has been unable to preach or attend to his other duties, his place having been supplied by Rev. Mr. Cook, of New York, assistant to the late Dr. MILNOR. Mr. BRISTEN, has found the most valuable benefit from the Rings, Bands, and Fluid, and is better in every respect than he has been since his illness, and is now rapidly recovering his health. All symptoms of Epilepsy have left him.

Mr. JOHN MILLS, residing at 41 Greenwich Lane, New York, has been subject to Rheumatic pains for five years. He was cured in three days.

Mr. JOHN W. RICHARDSON, Collector in the New York Custom House, residing at 229 Tenth st. has been cured of severe attacks of the Gout, to which he has been subject for years. Mr. Richardson made use of the Galvanic Bands, on the affected limbs regularly using the Magnetic Fluid, and in less than two weeks, all traces of the complaint had disappeared. He has had no attack, for a period of near five months.

Mr. MOSES E. WILSON, No. 126 Broome-st. New York, had the Rheumatism for seven years, affecting him in the head, breast, joints, and limbs, where the pain was excessive, often keeping him from business. Mr. Wilson states that his system was entirely prostrated, that he has often fallen down insensible in the street, and would reel like a drunken person. Two weeks after using the Rings and Fluid, he was cured, and for a period of four months has had no return of the complaint.

THE GALVANIC STRENGTHENING PLASTERS.

But few words are necessary regarding these articles, which are gradually gaining an extensive celebrity. The public are cautioned against a spurious imitation, which is offered. The genuine Galvanic Plasters, bear the signature of A. H. CHRISTIE, M. D., on the back, which is of pure silk. All others are worthless counterfeits, by whatever name they are sold. A single certificate from a gentleman well known, and of high attainments in his profession, Judge Van Ness, will suffice as warrant of their virtues. The proprietor is in possession of about two hundred of a character equally conclusive.

To DR. CHRISTIE, New York.

My Dear Sir.—I owe you a debt, and the least I can do is to acknowledge it. I have suffered for the past twelve months, with a general debility of the system, being unable to bear the least fatigue, constantly liable to take cold, and was otherwise unpleasantly affected by the slightest exposure. Some of my neighbors, had tried your Galvanic Plasters, with benefit, and by their accounts I was induced to make the attempt. I am most happy to say, the trial has been very successful in my case. The Plasters, and Magnetic Fluid, have so altered my system that I feel quite young again, and certainly have not been in such good health for many years. I have much confidence in your Galvanic remedies.

Truly, yours,

P. VAN NESS.

Princeton, N. J., Nov. 2d, 1845.

The Opinion of Physicians.

After the evidences furnished in this sheet, it is probably unnecessary to quote the names of many eminent physicians, who are vouchers for the truth of most of the foregoing cases, and who have adopted the use of Galvanism, as applied by these articles, in their practice. Dr. CHRISTIE, is daily receiving letters from all portions of the country, from physicians of the highest reputation, containing statements of the happy results, which have thus been accomplished. These letters have always been considered confidential, even though their personal might be of essential benefit to the suffering public. The following, however, it is deemed but a matter of strict right to publish, hearing, as it does, the name of a gentleman, so justly distinguished for his successful researches in this peculiar department of medical science.

FOR ALL WHOM IT MAY CONCERN.

I, the undersigned, without the least hesitation, do feel warranted in asserting that the Galvanic articles invented by Dr. A. H. CHRISTIE, contain very valuable properties, particularly in the case of SPINAL COMPLAINTS, SPASMODIC CONTRACTIONS, and IRRITATIONS OF THE NERVES. They have been used by many of my patients, who have received essential benefit from them. I have conversed with many who have declared to me, their perfect confidence in them, especially in Rheumatic affections—this is not unlikely, as Rheumatism, is certainly a disease of the nervous character, and it is in some mysterious connection with the nerves of the human system, that the remarkable efficacy of these articles is owing. Although I cannot explain the rationale of the benefit of CHRISTIE'S inventions, still so many authentic cases have come under my notice, that were I otherwise disposed, I must give in—for "seeing is believing." The science of Physiology, has many facts yet to be explained, and these new medical discoveries, are among the most strange and important.

J. B. M'MAHON, M. D.,

Boston, Dec. 23, 1845.

Dr. CHRISTIE, will at any time be happy to personally show many similar testimonials from his professional friends, and he respectfully tenders to them his sincere obligations for the favors he has thus received. If this matter were *Quackery*, it could not thus be countenanced.

R. PLYMPTON, Esq., Lumbar dealer, Causeway street, between Warren, and Charleston Bridges, Boston, Mass., has been cured of Indigestion, and General Debility. Mrs. Plympton, has been relieved of Nervous Headache.

CAUTION! CAUTION!!

Beware of all imitations of these articles. Unprincipled persons have counterfeited them, and thus attempted to deceive the public. The metals of which the Rings, &c., are composed, are prepared by a secret chemical process, known only to the Discoverer, and all imitations are entirely worthless, being devoid of any Galvanic influence, and consequently of any beneficial effect.

The *New York Sun*, has the following:—

CAUTION TO THE PUBLIC.—We feel it a duty to caution the public, against purchasing any of the imitations of Dr. CHRISTIE'S Galvanic articles, which may be offered by worthless and unprincipled persons. We can state with confidence in its truth, that these imitations possess no beneficial influence whatever, and must be regarded in no other light than a direct fraud.

Purchase only of the one authorised Agent which is in each city, or which is named in this sheet.
